Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Application No. Applicant(s) 10/580,794 ISHIDA, HITOSHI Office Action Summary Examiner Art Unit NIZAL S. CHANDRAKUMAR 1625 -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS.

- WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.
- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed

- If NO - Failu Any	after SIX (6) MONTHS from the mailing date of this communication. If NO protein or nayly a specified above, the maximum studency period will apply and will expres SIX ((0) MONTHS from the mailing date of this communication. If NO protein or nayly associated above, the maximum studency period will apply and will expres SIX ((0) MONTHS from the mailing date of this communication becomes MARNONED (GS ULSC, § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patter term adjustment. See 37 CFR 1.7405 and the second sec				
Status					
1)⊠	Responsive to communication(s) filed on <u>04 August 2010</u> .				
2a)□	This action is FINAL . 2b)⊠ This action is non-final.				
3)] Since this application is in condition for allowance except for formal matters, prosecution as to the merits is				
	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.				
Disposit	ion of Claims				
4)⊠	Claim(s) <u>1-3</u> is/are pending in the application.				
	4a) Of the above claim(s) 1 and 2 is/are withdrawn from consideration.				
5)	Claim(s) is/are allowed.				
6)⊠	Claim(s) <u>3</u> is/are rejected.				
7)	Claim(s) is/are objected to.				
8)□	Claim(s) are subject to restriction and/or election requirement.				
Applicati	ion Papers				
9)	9) The specification is objected to by the Examiner.				

10) ☐ The drawing(s) filed on 26 May 2006 is/are; a) ☐ accepted or b) ☐ objected to by the Examiner.

Applicant may not request that any objection to the drawing(s) be held in abevance. See 37 CFR 1.85(a).

Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).

11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) All b) Some * c) None of:
 - Certified copies of the priority documents have been received.
 - 2. Certified copies of the priority documents have been received in Application No.
 - Copies of the certified copies of the priority documents have been received in this National Stage
 - application from the International Bureau (PCT Rule 17.2(a)).
 - * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 1625

DETAILED ACTION

Election/Restrictions

Applicant's election of Group 3, claim 3 in the reply filed on 8/4/2010 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 1,2 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 8/4/2010.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 103

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States. Application/Control Number: 10/580,794

Art Unit: 1625

The factual inquiries set forth in *Graham* v. *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

- Determining the scope and contents of the prior art.
- Ascertaining the differences between the prior art and the claims at issue.
- Resolving the level of ordinary skill in the pertinent art.
- Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 3 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Rein et al. Journal of Organic Chemistry (1994), 59(8),2107-13 and Poli et al. Journal of AOAC International (1995), 78(2), 538-42 independently and collectively. Applicant provided references IDS filed 5/26/2006 in view of Watanabe et al. Biochemical and Biophysical Research Communications Volume 188, Issue 1, 15 October 1992, Pages 114-119.

Rein et al. and Poli et al. teach compound of instant claim 3 Chemical Abstract Registry No. 155173-05-0. This compound (2) taught as a synthetic carboxylic acid derivative of the corresponding brevetoxin aldehyde PbTx-2, the prior arts also disclose biological property of this acid. See for example Table 1, page 2110. This acid derivative is taught as less toxic than the corresponding aldehyde.

Poli et al. taught these compounds for radioimmunoassay for brevetoxins. It is well-known that aldehydes are metabolized to carboxylic acid in vivo in the elimination of toxic aldehydes; see for example Watanabe et al. As such with this generally known biochemical mechanism, one of skill in the art of biochemistry

Application/Control Number: 10/580,794

Art Unit: 1625

would use the carboxylic acid as biomarker for brevetoxins because Poli et al teach the instantly claimed compounds for radioimmunoassay and further because Rein et al. teach that brevetoxin compounds with similar structure & conformation would have similar properties.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NIZAL S. CHANDRAKUMAR whose telephone number is (571)272-6202. The examiner can normally be reached on 8.30 AM - 4.30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres can be reached on 571 0272-0867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
